### Research Interests

Screen Production

Cole Larsen is a former journalist and photographer who turned to film making after doing post graduate study at Flinders University in the mid 1990's.

He has produced, written and directed short films, independent and broadcast documentary, children's drama, television commercials, government and corporate films.

Cole is an active film maker and is currently working on a number of documentary projects in Australia and overseas.

- Conducting multidisciplinary collaborative research on Australia's biodiversity & landscapes
- Providing innovative interpretation of biodiversity research for a wide variety of end-users
